SY CHEER

The newly Approved Group 1 milling wheat

SY CHEER has excellent seedling and adult plant resistance to yellow rust which helps secure both yield and grain quality, particularly when spray timings are compromised by weather in spring

SY CHEER at a glance

- First UKFM Group 1 since 2017
- Excellent grain quality: best in class for specific weight + HFN
- Good ability to assimilate protein in the grain
- High untreated yields driven by robust disease resistance including seedling resistance to yellow rust
