AGRONOMIC RATINGS

	Lodging+PGR (%)	Height (cm)	Ripening (days +/- Skyfall)
RGT Goldfinch	3	88	+3
KWS Extase	3	91	-1

DISEASE RATINGS

	Mildew	Yellow rust	Brown rust	Septoria tritici	Eyespot	OWBM	BYDV
RGT Goldfinch	7	9	9	7	5	R	R
KWS Extase	6	7	6	7	3	-	-

RGT Goldfinch has a very good foliar disease resistance profile with double 9's for yellow and brown rust.

It also has resistance to both BYDV & OWBM, giving growers the option to grow reduced insecticide wheat. End users have observed good milling quality.

Depending on location, we would advise the optimum sowing window for RGT Goldfinch is mid-September to the end of November.
